EDUCATION

- 2021 – 2026
- Birendra Multiple Campus, Narayangarh, Bharatpur, Chitwan
  BCA

SKILLS

- User research
- Usability testing
- Project management

EXPERIENCE

WEB DEVELOPMENT INTERN,AKSHYARAANGA SANJAAL PVT. LTD Sep 2025 - Dec 2026

Project: Online Student Management System contributed as a full-stack developer during a production internship.

- Developed and implemented front-end interfaces using HTML, CSS and JavaScript/React to improve usability and data entry workflows.
- Built and maintained server side features in PHP and Node.js, and integrated MongoDB for reliable student data storage and retrieval.
- Implemented form validation, authentication flows, and role-based access to secure sensitive student records.
- Collaborated with a cross functional team to translate requirements into features, debugged issues, and performed end-to-end testing to ensure functionality.
- Documented code and deployment steps to streamline handover and future maintenance; expanded practical knowledge of modern full-stack tooling and best practices.

EDUCATION

Expected graduation: Sep 2026
Relevant coursework: Web Development, Databases, Data Structures & Algorithms.

- Developed three full-stack applications (Online Student Management System, Food Delivery, Movie Ticket Booking) using React, Node.js/PHP, and MongoDB.
- Implemented authentication, role based access control, form validation, and RESTful APIs for secure data handling.
- Optimized front-end workflows to improve usability and documented code and deployment processes for maintainability.
